

Georg-August-Universität Göttingen		18 C
Module M.Phy.406: Research Lab Course in Biophysics and Physics of Complex Systems		
Learning outcome, core skills: Learning Outcome: By working independently within a current scientific research project students are fostered to familiarize themselves with a new advanced topic in the field of Biophysics/Complex Systems. They will learn to successfully perform a sub-task and finally present the results to a professional audience. Core skills: Students will be able to organize, conduct, evaluate and present small, manageable projects in the field of Biophysics/Complex Systems, obeying the rules of good scientific practice.		Workload: Attendance time: 0 h Self-study time: 540 h
Course: Research Lab Course in Biophysics and Physics of Complex Systems		
Examination: Lecture, (2 weeks preparation time) (approx. 30 minutes) Examination requirements: Methods for in-depth familiarisation in a scientific field of work, critical review of literature, scientific presentation, good scientific practice.		18 C
Admission requirements: none	Recommended previous knowledge: none	
Language: English, German	Person responsible for module: Alle Dean of Studies of the Faculty of Physics	
Course frequency: each winter semester	Duration: 1 semester[s]	
Number of repeat examinations permitted: twice	Recommended semester: 3 - 4	
Maximum number of students: 40
