

Georg-August-Universität Göttingen Module M.EuCu.41: Eurocompetence III: Research or Professional Project Application Preparation and Writing	5 C 2 WLH
Learning outcome, core skills: This is the third seminar in the "Eurocompetence"-scheme. It builds on the modules „Eurocompetence I" and „Eurocompetence II" as well as the research seminars. This final Euroculture course is seen as a bridging step to the start of either a professional career or an academic career. The workshops facilitate the independent preparation and writing of an appropriate professional or research project application, depending on the future track selected. Students are introduced to the process of writing a project/grant proposal/application. It also offers them practical experience with writing a grant/project proposal and experience with assessing/comparing the proposals of their peers. Students will also gain knowledge about resources for project proposals available within the European Union context. Suitable professional project applications could be submitted in the framework of existing European programmes and examples from former students will be provided. The course offers students the possibility of choosing either between writing a professional project proposal or an academic project proposal (PhD). The involvement on partners in both tracks is essential in all Euroculture Programmes within the Consortium.	Workload: Attendance time: 28 h Self-study time: 122 h
